Dear Mr. Steinmetz:

Thank you for arranging the meeting with Mr. Anno Bousema in Limassol, which facilitated the discussion on the program offered by the European Actuarial Academy (EAA). The meeting proved very beneficial.

The *ad hoc* Education Assessment Working Group (EAWG), of the IAA Education Committee, has concluded that the EAA Modules fit reasonably well with the IAA Education Syllabus. If an association uses some of the EAA Modules, it would most likely be considered compliant with the IAA Education Requirements. It would, however, be necessary to examine an association's entire education system, together with each of the modules they use, to ensure that it is fully compliant.

Sincerely,

Mary Frances Miller
Chairperson, Education Committee
